

## TABQUIK 6

### Color-Coded Labels on Demand

TABQUIK 6 is labeling software that provides you with an easy and efficient way to color-code files and other media for timely organization and retrieval. The laborious task of creating and applying color-coded labels to file folders and other media is made easy. With TABQUIK 6, you get on-site color-coded labels on demand.

### The Total Solution

TABQUIK 6 is a scalable, Windows-based software solution that allows you to set a color-coded and labeling standard across your entire enterprise. To meet individual and multi-user requirements, TABQUIK 6 is available in Stand-Alone and Network versions.

Whether your labeling system requires you to modify the color palette to match existing color schemes or should it require customized configuration of the data entry screen, TABQUIK 6 provides you with end-to-end control. The editing tools allow you to manage and configure your label data. You have complete control of the following design elements:

- Color palette design
- Data import design
- Project file design
- Input grid & form

### Features

*Convert data into color bars, bar codes and file identification text*

*User-selectable color palette - match any system*

*One custom and four standard label designs included - unlimited label designs are available for a nominal fee*

*Print top tab and side tab labels using the same data file - one right after the other*

*Produce labels for file folders, videotapes, data tapes, flexible diskettes or other media - possibilities are limitless*

*Project Associations - you define how TABQUIK works on your workstation*

*Enter data via a grid (worksheet) or from a form*

*Sort data by clicking on a grid column header*

*Preview your labels as you key them in, all on the same screen, or as you select them for printing*

*Automatically print your labels when you send a file from your computer system (database)*

### NEW MODULE - TABLynx

*Use TABLynx to get your label data from your computer system (database); print them per your defined schedule*

# TAB FILING SYSTEMS

## Benefits of Color-Coding

Color-coding provides tangible, measurable benefits in any filing situation. It speeds retrieval time by allowing you to visually identify specific files and it virtually eliminates misfiles because incorrectly placed files are readily apparent.

## High Quality Labels

The TABQUIK label is a high quality, smear-proof, coated stock, with a long lasting acrylic based adhesive. TABQUIK labels will go on, stay on and remain legible for the entire life cycle of your files.

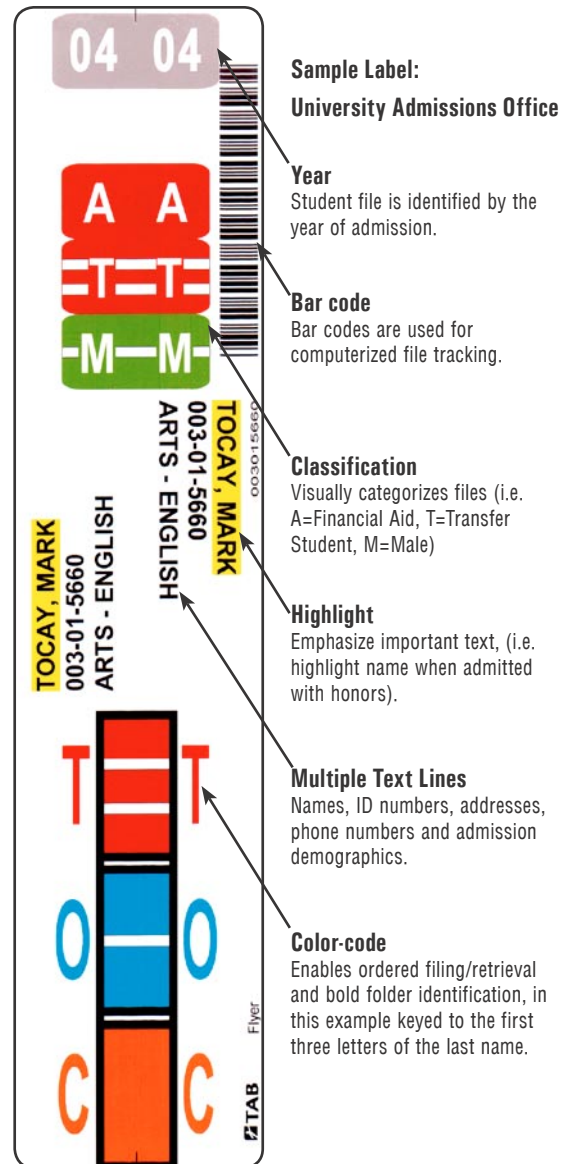

## System Recommendations

- IBM, PC or compatible running Windows 98, ME, 2000 or XP
- CD-ROM drive
- 32 MB for Windows 98
- 64 MB for Windows 2000 or XP
- 17 MB disk storage space
- Mouse and keyboard
- VGA/SVGA card with 4 MB of RAM
- TAB recommended printer
